IMERMAN ANGELS CONNECTS PATIENTS, CAREGIVERS, AND SURVIVORS GLOBALLY

Imerman Angels connects patients with cancer with a survivor who has beaten the same type of cancer. The one-on-one relationship allows patients to ask personal questions and receive encouragement from those uniquely familiar with the situation, and it allows cancer survivors to help patients battling the disease. Imerman Angels also connects caregivers with other caregivers who can relate to and understand their situation. Imerman Angels helps patients, survivors, and caregivers throughout the United States and around the world at no charge.

For more information, call 312-643-5560, e-mail info@imermanangels.org, or visit www.imermanangels.org.
